**Commissioner for Patents****Response to Amendment**

1. The reply filed on August 5, 2004 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s):

Applicant has failed to specifically point out the support in the original disclosure for each of the newly presented claim limitations, i.e. "the transition member having a stiffness less than the first stiffness and the second stiffness" (M.P.E.P. 714.02). Because of the procedure outlined in M.P.E.P. 2163.06 for interpreting the claims, it is noted that other art may be applicable under 35 U.S.C. 102 or 35 U.S.C. 103(a) once the aforementioned problem under 35 U.S.C. 112, first paragraph, is corrected.

It is noted that the applicant pointed to page 7 lines 15-17 and page 7 line 29-page 8 line 1 of the specification for support. After reviewing the relevant portions of the specification, the amendment to the claims is not supported. According to the specification and to applicant's arguments, the transition member has a stiffness that is between the stiffness of the intravascular device and the stiffness of the distal shaft portion. The amendment to the claims indicates that the transition member has a stiffness that is less than the distal shaft section and less than the stiffness of the distal shaft section at the intravascular device position.

2. See 37 CFR 1.111. Since the above-mentioned reply appears to be bona fide, applicant is given ONE (1) MONTH or THIRTY (30) DAYS from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
